

First International Conference Role of ICT in Local and Regional Sustainable Development

Galati, 24-25 August 2007

Euro ICT Develop

About Euro ICT Develop

The event is organized by consortium of Euro_Net_Develop (European Network Promoting a Socio-Economic Model for Local and Regional Sustainable Development) project in a frame of Romanian Program Excellence Research supported by the Ministry of Education and Research.

Participants and Partner organisations in the Workshops, were able to initiate and influence the design and content of future activities for a new action program.

The next event is planned to take place in August, 25-26th 2008.

Scope and Objectives of Euro ICT Develop

The main scope of this event is to gather experts from academic, political and business environment for debating the main challenges for the e-Society when passing to the "new economy" under the impact of ICT development.

This edition aims presenting information and new analysis methods that will contribute to the European effort in appreciating the performances of the Information Society as most important factor of socio-economic evolution to sustainable development.
